REVOLUTION LED BULBS

Save battery life and never buy another replacement light bulb. Pulls 90% less power than a standard incandescent bulb and lasts longer than 125 incandescent bulbs. Water resistant, this is the only bulb in the world that rotates over 300° in its base to allow you to aim the light to where you need it. Replaces #1003 (model 150) and #1156 (model 200) or most single contact incandescent bulbs. 1/card.
